NOT ENOUGH TAXES.

When the appropriation ordinance was prepared the city valuation was placed at \$180,000,000, including reductions on rural and agricultural properties, but the Finance Committee at the time of making this cal-culation really expected the valuation to run up to fully \$200,000,000, though they based their plans on \$180,000,000. At the rate of 12 mills they calculated to receive \$2,165,960 75 from city taxes. From the rable above, if will be seen that the valuations on the entire city amount to \$195,542,-345. Of this sum \$142,111,537 represents real estate taxable at the full rate of 12 mills; \$44,203,950 represents rural property taxable at a two-thirds rate or 8 mills; \$7, 731,730 represents agricultural property taxable at one-hall rate, or 6 mills, and \$1,495,128 represents personal property which is also taxable at the full 12-mill rate. The tax levy then on the property assessed at the full rate is \$1,723,279 98; on rural property, \$353,631 60, and on agricultural property, \$45,390 38. The total tax levy according to this statement is \$2,122, 301 96, or \$43,658 79 less than the Finance Committee anticipated, although the valua-tior runs up considerably higher than the figures upon which they based their calculations. This deficiency in the present year's appropriations will, it is more than probable, be increased from 5 to 10 per cent by reason of exonerations and taxes that will not be paid.

A CAPITAL STOCK OF \$50,000.

Cornepolis is to Have a Burial Ground Consisting of 100 Acres.

Cornopolis will soon have a cemetery That is about all now except a good sewer that is needed to make it a comfortable place of residence. The people who live there, as a rule, are firm adherents to their religion, and only the Methodists have possessed a burial ground. The Presbyterians have been using the Forest Grove Church burial ground, and though it is a pleasant place to lie in, it is four miles from the orough, and the road to it gets very muddy at times, while the United Presbyterians

times, while the Child Pressylerians have had no place at all.

The corporators of the new project are J. W. Curry, John Watson, Thomas F. Watson, F. B. Patterson and Charles E. Cornelius, Esq., who has prepared the papers for presentation to Common Pleas Court No. 1, and will ask for a charter. The capitalization is \$50,000. The old Methodist burnal ground has been secured along with other tracts in the vicinity amounting to over 100 acres on the top of the hill above Mrs. Riter's place, and a good road will be constructed from Coraopolis to the cemetery. From the ground, much of which is covered with forest trees, can be seen all the Ohio

"When the late President Callery died there was a well-defined feeling that Mr. Andrew Carnegie should be taken into the road as a stockholder. Accordingly, 35,000 shares, previously owned by Mr. Callery, were sold to him. It is not at all likely that he has received any more than this, as the

persons holding stock are very well satisfied with it. "It will be utterly impossible for Mr. An drew Carnegie, Mr. Harry Oliver or Mr. John Chalfant, or any combination of these men, to obtain control of the road before 1892. FOR THE SOUTHSIDE.

The Safety Committee Will Advise the Purchase of Three Lots. The Committee on Public Safety will meet this afternoon to consider several ords. nances that have been referred to them, the most important of which is one authorizing the purchase of lots in the Thirty-first and Thirty-fifth wards for fire engine and hose houses. The ordinance only contemplated the purchase of two lots to be located at such points as to be easily available for the hilltop wards, the Thirty-first, Thirtysecond and Thirty-fifth, but property within the limits prescribed by the ordinance arose so rapidly in value after the matter became

pointed to investigate the situation, have deemed best to change the plan, and will report to the committee to-day advising the necessity of purchasing a lot in each of In their report the sub-committee will say that they have made a careful examination of the whole matter, taking into consideration the peculiar topography of the hill tops on the Southside, the rapid increase of the population and the destructible character of the buildings, nearly all of which are frames. Believing it to be to the best interest of the city that there should be a hose or engine house erected in each of the three wards, the sub-committee therefore recommends and urges that Councils pass an ordinance providing for the purchase of a lot of ground in each ward, the aggregate cost of which the sub-committee states should not be more than \$7,000. This will give the Chief of the Department ot Public Safety the privilege of locating the property wherever he may select and

the approval of Councils. ODD ARTICLES LOST.
